### **Parent/Guardian:**

I understand that digital devices and internet access can provide students with valuable learning experiences. I also understand that it gives access to information on computers around the world; that the school cannot control what it is those computers; and that a very small part of that information can be illegal, dangerous, or offensive.

I accept that, while teachers will always exercise their duty of care, protection against exposure to harmful information should depend finally upon responsible use by students.

I believe \_\_\_\_\_ (name of student) understands this responsibility, and I hereby give my permission for them to access the Internet under the school rules and use digital technologies appropriately and as outlined above. I understand that students breaking these rules will be subject to appropriate action by the school.
